[illegible]ocks around the globe trying to prevent regional tensions and conflicts from escalating into full-scale war. And, more recently, the United States was able to [illegible] an upsurge in terrorist attacks that could claim hundreds of American lives [illegible], including a 4[illegible]-year-old CIA officer named [illegible] who was killed during a [illegible] visit to [illegible] in [illegible] and who, at the time, was my [illegible] at CIA.

During my 25-year career at CIA, I worked closely with and even participated in history being made in far-off corners of the world, as CIA fulfilled its critical intelligence roles – collecting intelligence, uncovering secrets, identifying threats, partnering with foreign intelligence and security services, analyzing opaque and complicated developments abroad, carrying out covert action, and anticipating threats before they happen – all in an effort to protect our people and strengthen America's national security.

And throughout my career, I had the great fortune to experience firsthand the work and mission of those who chose to become CIA officers:

- Such as an analyst, who has the daunting but tremendous responsibility to take incomplete and frequently contradictory information and advise the most senior policymakers of our government about foreign political, military, and economic developments.

- Or an operations officer, whose job it is to find and obtain those elusive secrets that provide advance warning of strategic surprise, political turbulence, terrorist plots, impending violence, cyber attacks, and persistent threats such as nuclear, chemical, and biological weapons proliferation.

- Or a technical expert, who seeks new and creative ways to find nuggets of intelligence in tremendous volumes of data, provide secure and even stealthy intelligence collection and
