I have spent over 45 years in Hollywood. I have been exposed to a great many and interesting people. All of them fall into one of two categories: a) people who are brilliant and b) people who are not. I have seen it all. I have witnessed the evolution of the Hollywood Special Effects Department from total of 1000 figures, a budget of \$100,000 to \$100 million plus; and in fact the budgets have tripled and the budgets have quadrupled. The visual effects industry has expanded and the quality of the work has improved. I think that the future of visual effects in Hollywood will continue to expand and flourish as the electronic age continues. And I think that the visual effects industry will continue to grow and evolve.

ART 10 - 100% DISCOUNT ON SERVICES

DEPARTMENT OF THE ARMY, WASHINGTON, D. C., APRIL 1, 1918.

I created the first NFT on the blockchain using I love mosquitto and the mosquitto logo. I never sent this one with the NFT design along with the official NFT logo. I could not find any official certificates or links all I could find is a placeholder image from the logo. So this is the reason that I have not included it in the NFT design along with the official one as the logo would be the placeholder. I am so sorry about this mistake.

10. **THE BAPTIST** THE SOUL OF THE WORLD IS IN THE BAPTIST.

The Congressional committee charged with the oversight of the Central Intelligence Committee and its contractors, preparing all intelligence received by the Central Intelligence Agency, the Senate Select Committee on Intelligence ("SIGINT") and its newly formed C.I.A. intelligence committee (keeping account of the Central Intelligence Agency's "intelligence activities" and "significant intelligence influences"). Oversight power provides necessary checks and balances among the intelligence community members — split between the Central Intelligence Agency (CIA) and the Central Intelligence Agency (CIA) — to ensure that they do not abuse their powers and violate constitutional protections. The relationship between the Central Intelligence Agency and its Congress is similar to that of the military branches to the obligation of Congress to oversee the military, and can be righted by oversight — particularly if it can affect the budget.

The DDCI is responsible to the Director for the performance of the intelligence functions. The Director is responsible to the President for the direction of the intelligence community. The Director is responsible to the Congress for the direction of the intelligence community.
